Course overview

The -Dynamic Decision Making course will increase your knowledge and ability to:

Access your decision making style, define clear parameters of your decisions; collect relevant information and generate creative alternatives. Hone your intuition and incorporate it as you make decisions, to define consequences and payoffs. Analyze risks and define your level of risk tolerance. Avoid common mistakes and psychological traps in the decision making process. Correlate the appropriate strategy with the specific decision, and describe the dynamics of group decision making. Develop clear guidelines on communicating your decisions, and design an action plan to evaluate the results of those decisions; to tailor your decision making style to be situationally appropriate.

Course objective

Access your decision making style, define clear parameters of your decisions; collect relevant information and generate creative alternatives. Hone your intuition and incorporate it as you make decisions, to define consequences and payoffs. Analyze risks and define your level of risk tolerance. Avoid common mistakes and psychological traps in the decision making process. Correlate the appropriate strategy with the specific decision, and describe the dynamics of group decision making. Develop clear guidelines on communicating your decisions, and design an action plan to evaluate the results of those decisions; to tailor your decision making style to be situationally appropriate
