Course overview

No-one in business will succeed if they are not financially literate – and no business will succeed without financially-literate people. This is the ideal programme for managers and others who don't have a financial qualification or background but who nonetheless need a greater understanding of the financial management disciplines essential to your organization

Course objective

This course will give the participants a sound understanding of financial reports, measures and techniques to make them even more effective in their roles. It will enable participants to:

- Overcome the barrier of the accountants' strange language
- Deal confidently with financial colleagues
- Improve their understanding of your organisation's finance function
- Radically improve their planning and budgeting skills
- Be much more aware of the impact of their decisions on the profitability of your organization
- Enhance their role in the organization
- Boost their confidence and career development

Who should attend?

This course is designed for people who require a greater working knowledge of the accounting process and financial statements.
